

GR2001 3541 0 - MICROS OPERA software interface for 3M Swipe reader family 3M™ RTE6700 Reader/3M™ RTE6701 Reader.
 GR2001 3542 8 - MICROS OPERA software interface for 3M Page Scanner family 3M™ RTE8000 Reader, 3M™ AT90000 Reader & 3M™ Kiosk Reader.

<p>Date Issued: Supersedes:</p>	<p>September 9, 2009</p>
<p>Product Use</p> 	<p>The 3M™ Hotel Interface Software for MICROS OPERA provides a seamless interface with the MICROS OPERA Property Management System (PMS).</p> <ul style="list-style-type: none"> • Use a 3M full page document scanner or a swipe reader to quickly and accurately populate guest data into OPERA PMS • Capture an image of the travel document or extract photo from the document and store in OPERA PMS database, if a full page scanner is used • Quickly find guest reservation data using travel document swipe • Confirm identity by viewing guest picture in guest profile • Easily collate guest travel document images and send to authorities when required by regulation or policy
<p>Description of OPERA Property Management System</p>	<p>MICROS OPERA Property Management System (PMS) software is designed to meet the needs of any size hotel or hotel chain. OPERA PMS provides all the tools a hotel staff needs to do their day-to-day jobs — handling reservations, checking guests in and out, assigning rooms, managing room inventory, accommodating in-house guest needs and handling accounting and billing.</p>
<p>Key Features & Functionality</p>	<ul style="list-style-type: none"> • Seamless software interface with OPERA Property Management System • One single interface supports multiple types of travel document readers — 3M full page scanners and 3M swipe readers • One scan command to populate first name, last name, date of birth, nationality, gender, ID type and number and store in OPERA's guest profile database • Store travel document image as attachment in OPERA database • Extract guest photo from travel document and store in OPERA PMS as attachment • Reads standard ICAO travel documents and the US enhanced driver's license • Print attached images

Guest Profile

A guest profile data entry screen with scan button. Guest passport has already been scanned in and image of travel document attached.

Viewing Capture Images

Either a full-page view of the travel document or the guest's picture can be attached to the guest profile. The document can be displayed from the profile for later inspection or service.

Configuration Options

Configuration is available for the following:

- Acceptable document types (travel document and/or driver's license)
- Type of image to be attached and stored (full page of document or guest's facial image)

Installation Package	<p>3M provides a Windows package to install the software for the reader. Note that there is one package for swipe readers and another one for full page readers. The software package contains applications for demonstrating the scanner, troubleshooting any problems and configuring the scanner.</p>
